

NOTE-TAKING /NOTE-MARKING

Note-taking and Note-making implying that we take notes make notes. Thou note taking essentially refers to the act of writing down key points (notes) in the course of listening to a lecturer ~~et al~~ whereas note making has to do with the act of writing down notes in the process of reading a text or passage. In other words note taking means the act of writing, putting or jotting down something during lecturer seminar, symposiz or conferences etc. while ~~for~~ note making is the forming notes or adding to what has been said in the course of lectures or conference through research materials.

PRINCIPLES OF NOTE-TAKING/ NOTE-MAKING

- i. Note-taking\ Making aid our memory during studies and revision.
- ii. Listening and watching others to do something sometimes repeatedly we aid our understanding.
- iii. Note-taking, help use to record accurately the lecturer main ideas make it fresh in our memory.
- iv. Note-taking\ Making make lecture part of our own knowledge which could be recalled often.

TOOLS OF NOTE-TAKING\ NOTE-MAKING

For effective note taking\ note making we need the following:

- i. **A SEAT**- A good seat is necessary for effective note taking this enable the students to listen and hear the lecture clearly and see what is on the chalk board.
- ii. **PEN AND PENCIL**; Two pen of different colored a pencil are necessary. The black and blue for continuous writing while red and green are for color contrast are very which make information stand out clearly like sign post. A pencil is use for drawing diagrams or putting graphs.
- iii. **NOTE-BOOK**- A standard notebook that could open flat is necessary for effective note taking such note book should have marge notes.
- iv. **BINDER FOLDERS AND FILES**: Student who prefer loose sheets or paper should make use of the binder etc.
- v. **CLIP BOARD**: The students should use the clip board to hold his/her notebook or loose paper him /her ~~leg~~ ^{legs} on something or stand up while writing.

- iv. **ABBREVIATION AND SYMBOL**; this is a necessary tools in note taking they are usually refers to as time saver and should be learn for prompt recall while taking notes.

Abbreviation fall, into three categories, they are: Every field of study has its own particular abbreviation, students of law, engineering, accounting, medicine etc students could use an abbreviation should be compiled and committed to memory by students according to the department.

A/C- Account accountant

ANS- answer

B4- before

METHOD OF NOTETAKING AND NOTEMAKING

a. Summary method

b. Table and grid

c. Outline method

d. Title and sub-title

e. Abbreviation and symbols

f. Cornell

g. Quotation and definition

h. Expansion

i. Acronyms

j. Flow chart etc.

OUTLINE METHOD- In this method, you are to present the ideas serially. The method reduce the length of the original text with the main point still present in an easy manner.

SUMMARY METHOD- It is the summary of text, writing down the main idea in a summary form or in a paragraphs form.

TITLE-AND SUB-TITLES- Do not compact your notes in one long mass use title and sub title to demarcate one main idea from sub-ideas so that your notes will be easy to understand.

ACRONYMS- We use it for the initials of words, it is used to save time.

FLOW-CHART - It is best used for text that deals with process or sequence of action.

TABLES AND GRID—this method is best used when you have contrast text. You outline the differences between two things in a tabular form.

ABBREVIATION- Also helps in note taking and making. They save time and therefore should be used for prompt recall when taking notes.

USES OF THE DICTIONARY

A dictionary is used for a variety of function

i. To find words

ii. To show stress and syllable

LANGUAGE

Language is the systematic means of communicating ideas or feeling by the use of sound and symbols that have commonly understood meaning. Language can be seen as a set of signs and symbols that express meaning in speech communicating such signs and symbols however are coded and the ability to decode than resides in the users of the language. Language is therefore, a weapon for cultural expression and transmission. It also stand out as a formidable instrument to measure an individual levels of intelligence.

LANGUAGE SKILLS

There are four language skills;

1. Listening skills
2. Reading skills
3. Speaking skills
4. Writing skills

The four skills can be divided into two;

1. Receptive skills: also known as decoding skills. These are;
 - Listening skills
 - Reading skills
2. Productive skills also known as encoding skills. These are;
 - Speaking skills
 - Writing skills.
 - Speaking being able to voice out what is been said.
 - Listening is the ability to decode what has been said.

- Writing – the acts of putting down on a paper.
- Reading – the acts of making meaning out of the written language.

CHARACTERISTICS OF LANGUAGE

They characteristics of language are as follows;

- a. Sound
 - b. It is a learnt behavior
 - c. It is dynamics
 - d. It is complex
 - e. It is unique.
- a. SOUND: One of the vital features of all human language is vocalization i.e production of meaningfully organized sound.
 - b. IT IS LEARNT BEHAVIOR – it is a learnt behavior from people who themselves have learnt at some earlier time from time from other people.
 - c. IT IS CONVENTIONAL – All human language are codified. Every language therefore must have code that is acceptable and meaningful to the users of the language.
 - d. IT IS DYNAMIC: Language is subject to change, change should be seen therefore as a general attribute of all languages. All language are creative and open ended. New words come into being and some old ones dies out.
 - e. IT IS COMPLEX AND SYSTEMATIC: Every language is complex than the other all languages are complicated.
 - f. IT IS UNIQUE: Every human language is unique to itself. It is for this reason that no language is superior to another.

FUNCTIONS OF ENGLISH IN NIGERIA

- As an international language – it provides us with information about almost fact of life.

- It the language of administrative – All civil service members and all reputable organization must use English.
- It is the language of formal education in Nigeria school discipline are approaches through English.

PARAGRAPH

The paragraph is a group of sentences that is concerned with the exposition of single thought or is a unit of composition built around one central idea. Paragraphing is a way of dividing continuous discourse into convenient segment to make it meaning and readable. Each new paragraph can be identified by indentation the small space between the margin and the first letter of the first word in a sentence or by skipping of one or two lines after each paragraph (block system style).

The paragraph consist of two parts: topic sentence and supporting sentences. The topic sentence is one that states in general terms, the central idea of paragraph, the central idea in turn is one of the points of an essay based on

organization while the supporting details of a paragraph are specific assertion of fact that support the topic sentence. Supporting the opinion of authorities. Because a paragraph contains one topic sentence but many supporting details. It sentence will be found varies in their level of generality.

QUALITIES OF A GOOD PARAGRAPH

A good paragraph possess unity, coherence, clarity and completeness.

UNITY

A paragraph is said to have unity when its sentences stroke to the topic and do not stray to secondary issues. All the sentence must focus on the topic of the paragraph to the exclusion of everything else.

COHERENCE

A good paragraph has coherence when its sentences are logically connected important device that can be used to ensure paragraph coherence is the use of transitional words or phrase e.g;

- Specification – specific, example or instance that is in particular.
- Qualification – but, nevertheless
- Comparison similarly, in the same manner.
- Emphasis indeed, infact, no doubt
- Conclusion – Therefore, as a result.

COMPLETENESS

A complete paragraph is one in which there is unity. The topic sentence must be developed in detail. Adequate development means a paragraph is as long as it

needs to be. An incomplete paragraph render the write up or essay weak and meaningless.

CLARITY

A paragraph is required to be very clear to the reader,, clearly include the use of vivid expression or state what the writer have in mind. We should try to avoid the errors from composing words or words that are similar or words that have more than one meaning.

METHOD OF DEVELOPING PARAGRAPH

1. You can define a term: Define the term "sentence" and tell your reader what sentence means to you.
2. You can also develop a paragraph by comparison by comparing and contracts i.e tell how one thing differ from the other.
3. By exposition i.e clear topic sentence and get the supporting detail to support the topic.
4. By classification of thing into their various classes, have the order of relationship should be arranged in progressive manner each of these idea is deveiop in detail to enable the reader to have clear knowledge of.
5. By illustration – built up a topic sentence and to be supported by examples which in turn develop it.
