THE FEDERAL POLYTECHNIC MUBI
DEPARTMENT OF BUSINESS ADMINISTRATION AND
MANAGEMENT.
FIRST AND THIRD SEMESTER EXAMINATION.
2021/2022 ACADEMIC SESSION.

Course Title: Entrepreneurship education and Development.
Course Code: EED 216.

Class: ND II Computer Science.

Time Allowed: 2 Hours.

Instruction: Answer Four (4) Questions.

1. Define the following Terms:
 - (a). An enterprise
 - (b). Self-employment.
2. Distinguish between Wage Employment and Entrepreneur.
3. (a). Enumerate the Characteristics of an Entrepreneur.
(b). List down the examples of weakness, in that of SWOT Analysis.
4. Explain in details the primary functions of management.
5. In a tabular form write down the vertical structure of a management.

THE FEDERAL POLYTECHNIC, MUBI

DEPARTMENT OF MATHEMATICS AND STATISTICS

1ST AND 3RD SEMESTER EXAMINATIONS, 2021/2022 ACADEMIC SESSION

Programme: ND II Computer Science. Course Title: Statistical computing II. Course Code: COM 216.

Duration: 3 Hours. Instructions: Answer any Five (5) Questions.

1. The data used by students in their research in table 1 measured in Mega Bits; determine the effect on their performance in the two subjects by fitting the regression equation.

Table 1

Mathematics (x)	2.3	2.9	1.6	1.8	1.9	1.2	2.2	2.5	1	2.7
English(y)	0.3	0.5	0.8	0.4	0.9	0.2	1.1	1.2	0.5	0.6

2. Use the frequency distribution of weights in table 2 to find,
a) Mean
b) Median
c) Mode

Table 2

Weights (KG)	Frequency (f)
60-62	5
63-65	18
66-68	42
69-71	27
72-74	8

3. The data in table 3 indicate the strength of Network in Chibok and Mubi, use the data and calculate the Kruskal-Wallis Test (H) Value.

Table 3

Mubi	2.3	2.9	1.6	1.8	1.9	1.4	2.2
Chibok	0.3	0.5	0.8	0.4	0.9	0.2	1.1
						1.2	0.5
							0.6

4. A). From the data in table 2 determine the standard deviation
B). Represent the data in table 4 on a Pie-chart

Table 4

States	Adamawa	Borno	Bauchi	Gombe	Taraba	Yobe
Population	15	25	30	15	10	5

5. Determine the correlation coefficient of the data in table 1, hence interpret your result.
6. The data in table 5 indicates level of education and computer knowledge in an aptitude examination, the table 5 is a contingency table use it to calculate the chi-square test

Table 5

	Education Level			
Computer Education		Diploma	Degree	Masters
Computer Based		25	30	45
Pen and Paper		15	18	35

7. A). Briefly explain how Statistical Package for Social Science (SPSS) can assist in statistical computing and hence list 6 statistical tools that can be used on SPSS.
B). Represent the data in Table 5 on a bar-chart and label it.

5.226
6.052

THE FEDERAL POLYTECHNIC MUBI

DEPARTMENT OF ELECTRICAL AND ELECTRONICS ENGINEERING TECHNOLOGY

END OF 1ST & 3RD SEMESTER EXAMINATION, 2021/2022 ACADEMIC SESSION
SEPTEMBER, 2022

PROGRAM: ND II Computer Science.

COURSE TITLE: Computer System Troubleshooting I.

COURSE CODE: COM 216

TIME ALLOWED: 3 Hours

INSTRUCTION: Attempt any Five (5) Questions only. All question carries equal marks. Do not write on the question paper

UNIT: 3

(1) (a) Outline any (2) Features which directly affects the performance of a power supply in your PC. [4 Marks]

(b) Give Four (4) effects of a bad power supply to a computer system. [6 Marks]

(c) (i) Differentiate between "Single-rail" power supply and "multi-rail" power supply pack. [6 Marks]

(ii) Give two (2) advantages and two (2) disadvantages of a multi-rail power supply pack. [4 Marks]

(2) (a) Write down the color code corresponding to each of the following voltage level in an ATX/NLX power supply pack as listed in the table below;

S/N	Voltage level	Color Code
1	-3.3V	
2	-5V	
3	+12V	
4	-12V	
5	+5V	

[5 Marks]

(b). Give the Voltage Levels for the following color codes in an ATX/NLX Power supply pack.

S/N	Voltage level	Color Code
1	Black	
2	White	
3	Yellow	
4	Orange	

[6 Marks]

(c). Write the Full Meaning of Following acronyms.

(i) HDD

(ii) ATX

(iii) NLX

(iv) PCI

(v) PATA

- (vi) SATA
- (vii) SIMM
- (viii) DIMM
- (ix) OS

[9 Marks]

(3) It has been discovered on a desktop computer that a dual in-line memory module has Failed and needed to be replaced with a functional one;

(a) Highlight the procedures involved in the replacement process. [12 Marks]

(b) List any three (3) causes of memory failure on a computer system. [5 Marks]

(c) List any three (3) memory packaging style and structures. [3 Marks]

(4) (a) Give the main difference between basic keyboard and extended keyboard. [4 Marks]

(b) (i) List any four (4) Keyboard failure symptoms. [4 Marks]

(ii) List any five (5) basic keyboard layouts that are in use. [5 Marks]

(c) A Computer User observed that some keys on the keyboard are hard and non-functional;

i. Give two (2) possible reasons for the keyboard behavior. [3 Marks]

ii. Highlight some basic steps you could take to restore the keyboard back to its normal functioning. [4 Marks]

(5) (a) Briefly explain the functions of the following items in a cathode ray- tube (C.R.T).

i. Cathode [4 Marks]

ii. Heater [4 Marks]

iii. Screen grid. [4 Marks]

(b) Briefly explain the following faults with respect to display system failure.

i. Heater open [4 Marks]

ii. Heater- short- cathode [4 Marks]

(6) (a) With a clear labeled diagram, draw a typical disk platter and label it. [12 Marks]

(b) Outline any Four (4) causes of hard disk failure. [8 Marks]

(7) (a) List any three (3) types of Mice. [6 Marks]

(b) Highlight any three (3) necessary Factors that are required for effective working of a mouse [6 Marks]

(c) List any three (3) causes of mouse failure and highlight the basic steps involved in the restoring it. [8 Marks]

PROGRAMME: ND II Computer Science COURSE TITLE: OO Java Programming COURSE CODE: COM 211
INSTRUCTIONS: Answer Four (4) Questions (60marks) TIME: 2 1/2 hrs CU: 4.0

Q1. With the aid of diagram explain Array in Java? [6 marks]

- What are the advantages and disadvantage of an Array in Java? [6 marks]
- State and list the types of Arrays in Java? [3 marks]

Q2a. Given the equation $x = \sum_{k=0}^7 3y$. Where $y=2$. Create a program to solve the equation above [9 marks]

- Write short note on the following: (i) Event handler (ii) Event (iii) Event source. [6 marks]

Q3a. With a java program example explain ArrayIndexOutOfBoundsException. [9 mark]

- What are Event Properties [3 marks]
- Write short note on Model-View-Controller (MVC). [3marks]

Q4. Consider the code below

```
public class Myarray{  
    public static void main(String args[]){  
        //creating two matrices a and b  
        int a={{1,3,4},{3,4,5}};  
        int b={{1,3,4},{3,4,5}};  
        //creating another matrix c to store the sum of two matrices  
        int c=new int[2][3];  
        //adding and printing addition of 2 matrices  
        for(int i=0;i<=2;i++){  
            for(int j=0;j<=3;j++){  
                c[i][j]=a[i][j]+b[i][j];  
                System.out.print(c[i][j]+" ");  
            }  
            System.out.println();//new line  
        }  
    }  
}
```

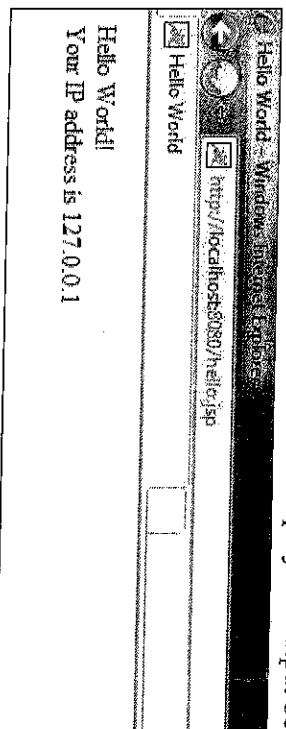

- What do you think would happen to the above program if you run it now [2 mark]
- Debug and rerun the program again [10 marks]

- What is the output of the program after debugging [3 marks]

Q5a. Write short note on GUI? [3 marks]

- Why do we decide to use JavaFX for GUI Java programming? [4 marks]

- Write short note on the following: (i) Inheritance (ii) Encapsulation (iii) Polymorphism (iv) Virtual Method [8marks]
- Q6a. Create a JSP program that will display the output below:

- List and explain at least three (3) steps involve in creating JDBC application. [7 marks]

[8 marks]

learn
use in
code

is much
faster
than
using

is simpler to learn and use for new Java programmer

THE FEDERAL POLYTECHNIC, MUBI
SCHOOL OF HUMANITIES AND CREATIVE ARTS TECHNOLOGY
DEPARTMENT OF LANGUAGES AND COMMUNICATION
1st AND 3rd SEMESTER MAIN EXAMINATION, 2021/2022 ACADEMIC SESSION

PROGRAMMES: ALL ND II
COURSE CODE: GNS 201

TIME ALLOWED: 2hrs 30mins
COURSE TITLE: Use of English II

Instruction: Answer question one (1) and any other three (3) questions.

QUESTION ONE

- a. What is Summary?
- b. Identify any five (5) steps in summary writing.
- c. Read the following comprehension passage carefully and answer the questions that come after it.

Marriage as a human institution is facing its greatest threat ever in the twentieth century, never, since the first man and woman were joined together, has the institution been beset by as many problems as it is now. And this trend, which started in the western world, has spread and is spreading to all parts of the globe.

The most disturbing problem is the high rate of divorce. It is no longer a social stigma for women to fill in forms indicating that they are divorced; men too, proclaim their liberty from the shackles of matrimony, somehow with pride. Little wonder that young couples resort to separation and eventually divorce at the slightest disagreement.

Not less among the factors hastening the death of marriage institution is the progressively rising cost of living. Nowadays, it is essential for both partners to be gainfully employed, to be sure of a reasonably decent level of existence. The marriage ceremony itself costs so much that the young men save towards it for years. Little wonder then that many young men simply remain single, raising one or two children from ladies who themselves are often willing collaborators against the institution of marriage.

Questions:

- i. What does the author means by referring to marriage as an institution?
- ii. What do the words 'liberty' and 'shackles' mean, as used in the passage?
- iii. Mention any two factors that are seriously threatening the marriage institution.
- iv.who themselves are often willing collaborators against the institution of marriage.
 - a. What is the grammatical term used to describe the above expression, as used in the passage?
 - b. What is its function?
- v. Give one word or phrase which can replace each of the following words, as used in the passage.
 - a. Globe
 - b. Stigma

QUESTION TWO:

- a. With three (3) examples, define phrase:-
- b. With three (3) examples, define clause,.
- c. Identify the underlined phrases in the following sentences:
 - i. The man in the garden is my uncle.
 - ii. The man at the gate is my father.
 - iii. I worked twice a week.
 - iv. The beautiful girl comes here every day.
 - v. The man in the garden is my uncle.
- d. Identify the underlined clauses in the following sentences:
 - i. Whatever you do I won't leave it.

- 04 04
- ii. I love girls although I have none.
 - iii. The vehicle is in the garage which John bought is good.
 - iv. The student recovered his money that was stolen yesterday.
 - v. He married as if it was the solution to his problem.

QUESTION THREE:

- a. Define a sentence. ✓
- b. Identify the following sentences according to function:
 - i. Chinua Achebe was a Nigerian writer.
 - ii. When did you return from Kano?
 - iii. Don't smoke in the room!
 - iv. Oh! My God.
 - v. The teacher is good.
- c. State the structural types of the following sentences:
 - i. Jones is a good teacher.
 - ii. The teacher is teaching and the students are listening.
 - iii. I slept while she was cooking.
 - iv. Musa came in and waited for his friends until it started to rain.
 - v. James did well in his business because he started with enough capital.
- d. Differentiate between a simple and a compound sentence.

QUESTION FOUR:

- a. Define Connotation.
- b. Construct simple sentences connotatively using the following words:
 - i. Table ii. Snake iii. Apple iv. Red v. Pillar vi. Head vii. Woman
 - viii. Block ix. Home x. Man
- c. Use the following words denotatively in sentences:
 - i. Head ii. Star iii. Pillar iv. Table v. Red.

QUESTION FIVE:

- a. What is an essay?
- b. Write short notes on the four (4) types of essays.
- c. List any three (3) qualities of a good essay.

QUESTION SIX:

- a. Define Drama.
- b. Write short note on any three (3) of the following:
 - i. Comedy
 - ii. Tragedy
 - iii. Tragic-comedy
 - iv. Melodrama
 - v. Farce
- c. List any four (4) terminologies of drama.

THE FEDERAL POLYTECHNIC, MUBI

School of science and technology

Department Of Computer Science

1ST and 3RD Semester Examination, 2021/2022 Academic Session

Programme: ND II Computer Science
Course Code: COM 215

CU: 3.0

Course Title: Computer Application Packages II

Instructions: Answer ALL questions in Section A and ANY two (2) question in Section B (60marks)
Time Allowed: 2 Hours

SECTION A

- _____ aids in the creation, modification, analysis, or optimization of designs in Computer
a. CorelDraw b. Photoshop c. 3D Design ☒ d. CAD
- _____ is popular image changing software package and is use by photo grapier for editing
a. Quark Xpress b. Corel Draw ☒ c. Photoshop d. Photo editor
- The Rows in a Microsoft Access table are also called _____
a. Fields ☒ b. Records c. Fields d. Columns
- _____ can represents tabular numeric data, function and also provides different information
☒ a. Chart b. Table c. Document d. Picture
- Block Attribute is auto-CAD information text association with a block that a user can enter
☒ a. True b. False
- _____ is a user interface element that contains various AutoCAD commands in panels and tabs
☒ a. Ribbon b. Task bar c. Menu bar d. control bar
- A _____ refers to a diagram or representation in CORELDRAW
a. a. Logo ☒ b. Drawing c. Poster d. Picture
- The following are types of digital image file format in CORELDRAW Except
a. JPEG b. GIF ☒ c. GEF d. TIFF
- _____ is designed for writing and editing complex and structured documents
a. CorelDraw b. MS Word c. Photos Editor ☒ d. Adobe Frame Maker
- AUTOCAD enable architects, engineers, and professionals to create 2D and 3D models
☒ a. True b. False
- A _____ key is a rule which ensures that unique data is entered for a field in MS Access Table
a. Child b. Mother ☒ c. Primary d. Secondary
- Which of the following is NOT a design tools for creating Letterheads?
a. Canva b. LucidPress ☒ c. Scribus d. GraphicsSprings
- _____ refers to a graphic element that displays movement
a. Video slide b. Graphics Slide c. Slide ☒ d. Animated slide
- The program below is use in 2D sketching to 3D modelling and is mostly use by engineers
a. CAD b. Corel Draw c. Smart Draw ☒ d. AutoCAD
- _____ is a structured collection of related data
a. Data Modelling ☒ b. Database c. Data Dictionary d. Dictionary tools
- The program below is a web-based diagramming tool used to make flowcharts
a. HTML b. Smart Draw ☒ c. CorelDraw d. 2D Design
- The visual representation of photographs and graphics is called
☒ a. An Image b. Graphics c. A Picture d. A frame
- A graphical representation for data visualization is called _____
☒ a. Chart b. Drawing c. Picture d. Animated
- Block Function inserts symbol and details in to drawing from commercial online source
☒ a. True b. False
- CAD Block are named group of objects that are NOT in a single 2D and 3D object
a. True ☒ b. False

21. A _____ is an image or visual representation of an object
☒ a. Graphic b. Bitmap c. Picture d. Design
22. _____ helps a user to trim a selected image, shape or text in CORELDRAW
 a. Cut tool ☒ b. Crop tool c. Outline tool d. Zoom tool
23. Which of the following is use in CORELDRAW as a magnifying glass?
 a. Snipping Tool b. Magnifying glass ☒ c. Zoom tool d. Cutting tool
24. One of the following is a graphic design software use in designs of Jotters and Receipt
 a. Photoshop b. Dreamweaver c. Microsoft Word ☒ d. Corel Draw
25. CAD enables the development, modification optimization of design process
☒ a. True b. False
26. _____ is use in publishing houses to produces a variety of layout such as single-page flyers
 a. Corel Draw b. Photos Editor c. Publisher ☒ d. Quark Xpress
27. _____ are some kind of virtual tables created by original tables from the database
 a. Table b. Forms ☒ c. Views d. Interface
28. Which of the following is NOT a design tools for creating Brochures?
 a. Venngage ☒ b. Pick Tool c. Scribus d. Inkscape
29. A data structure for a single piece of data in a table is called
☒ a. Field b. Row c. Column d. Query
30. Smart Draw software is frequently used by different types of engineers and designers
☒ a. True b. False

SECTION B

Question One

- a. Briefly explain the following terms in CORELDRAW
- Picture **2 Marks**
 - Drawing **2 Marks**
 - Chart **2 Marks**
 - Animation **2 Marks**
- b. Write the full meaning of the acronyms of Digital Image File formats below
- TIFF **2 Marks**
 - JPEG **2 Marks**
 - GIF **1½ Marks**
 - PNG **1½ Marks**

Question Two

- a. Briefly explain the following Computer Aided Design (CAD) applications
- AutoCAD **3 Marks**
 - CAD **3 Marks**
 - SmartDraw **3 Marks**
- b. Enumerate any four (4) reasons of using AUTO CAD **4 Marks**
- c. Outline the steps involved in Creating Attributes Definitions **2 Marks**

Question Three

- 15**
- Define the term Database Management System **3 Marks**
 - State any four (4) features of Database Management System **4 Marks**
 - State any four (4) merits and demerits of Photoshop in Desktop Publishing **8 Marks**

Question Four

Briefly explain the following terms in Microsoft Access

- 15**
- Field **3 Marks**
 - Record **3 Marks**
 - Table **3 Marks**
 - Form **3 Marks**
 - View **3 Marks**

PROGRAMME: ND II CS COURSE CODE: COM 212, DURATION: 2hrs CU: 2.0
COURSE TITLE: INTRO. SYS. PROGRAMMING
INSTRUCTION: Answer All Questions in Section A & B and Any Two Questions In Section C (60marks)

SECTION A

1. ----- software/ program provides a user-friendly interface to the user to operate the computer for intended purpose (a) Application software/program (b) Computer application (c) System software (d) All of the above
2. ----- is a collection of subroutines used to develop software (a) Library (b) Program (c) Application (d) none of the above
3. It consists of different programs that support how the computer operates (a) System programming (b) Computer application (c) System software (d) All of the above
4. This involves producing software's that meets the needs of the user (a) Application programming (b) Application program (c) system programming (d) system program.
5. Assembly language program's source-file follows a standard format which comprises (a) Operands (b) Macros (c) Pseudo-ops (d) Instructions.
6. Symbolic names which are used to identify memory location that are referred to explicitly in the program is called (a) Comment (b) Label (c) Opcode (d) Assembler.
7. A ---- is one of a small set of data holding places that are part of the computer processor. (a) Bit (b) Byte (c) Register (d) None of the above.
8. The operation of an assembler reflects the ----- of the computer (a) Features (b) Architecture (c) Parts (d) None of the above
9. ----- is a mechanism by which a program's flow control can be altered. (a) Stop (b) Pause (c) Interrupts (d) Continue
10. Any computer program written in any high-level programming language must be converted into ----- (a) Binary (b) Machine code (c) 0 & 1 (d) All of the above

SECTION B

1. ----- field specifies the data that are to be acted on by the instruction.
2. -----, ----- and ----- are examples of general registers you know
3. ----- converts each high-level program statement into the machine code and its program execution is performed line by line.
4. ----- is an interface between computer and user?
5. The two-principal means by which programming languages are implemented are ----- and -----
6. The conversion process from high level program code to low level machine code is called -----
7. Without ----- program the system cannot run system

SECTION C.

QUESTION ONE

- a. Explain the functions of operating system with respect to (i) Device management (ii) Processor management (iii) File management (9marks)
- b. Mention four (4) reasons why we need an Operating System and explain any one (1)(6marks)

QUESTION TWO

- a. Write short notes on the three (3) types of assembly language statement. (6marks)
- b. List and explain the cycles executed by the processor execution cycle (9marks)

QUESTION THREE

- a. Registers in 8086 CPU are categorized into three (3), enumerate these categories with two (2) examples each (9marks)
- b. List and explain any two (2) types of operating system. (6Marks)

24/0

041087

THE FEDERAL POLYTECHNIC, MUBI

SCHOOL OF SCIENCE AND TECHNOLOGY
DEPARTMENT OF COMPUTER SCIENCE
1ST & 3RD SEMESTER R EXAMINATION, 2021/2022 ACADEMIC SESSION

PROGRAMME: **ND II CS; COURSE CODE: UML 213;**
COURSE TITLE: **UNIFIED MODELLING LANGUAGE;**
INSTRUCTIONS: **ANSWER FOUR (4) QUESTIONS ONLY**

TIME: 2 ½ HRS
CU: 3
60 Marks

Question One

- Define UML as applied in OO programming.
- States five goals of UML.
- Identify four (4) types of UML software.

3 ½ mks
7 ½ mks
4mks

Question Two

- State the four (4) different kinds of relationships in UML.
- Define the three (3) basic types of modeling/diagrams in UML.
- Diagrammatically define what is package diagram in UML.

4mks
6mks
5mks

Question Three

- List four each major elements of Use Case Diagram, and specifications that make Use Case good. 8mks
- What do you understand by statechart diagram? 3mks
- Itemise four (4) main purposes of using statechart diagram. 4mks

Question Four

- With example, show where a state can have a transition that returns to itself considering the effect of association with transition.
- Explain what a Lost and found Message are, hence using a suitable diagram illustrate the scenario?

7mks
8mks

Question Five

- List four (4) modelling notations used in requirement phase of software development. 4mks
- Highlight the five types of association you know in modelling a system. 5mks
- In OO design, itemised four visibility notations for attribute and operations in UML. 6mks

Question Six

- Draw an association of a family tree where basic association in genealogy are father, mother & child. 7mks
- Define: (i). Event/trace, (ii). Inheritance (iii). Object, (iv). Class, (v). Polymorphism 5mk
- Sort the followings appropriately in a tabular form: The Flight class's attribute names with their associated attribute types: flightNumber, minutes, Integer, departureTime, Date, flightDuration 3mks
