THE FEDERAL POLYTECHNIC, MUBI.
DEPARTMENT OF BUSINESS ADMINISTRATION AND MANAGEMENT
2ND AND 4TH SEMESTER EXAMINATION 2021/2022 ACADEMIC
SESSION

PROGRAMM. NDI COMPUTER SCIENCE
COURSE TITLE; ENTREPRENEURSHIP EDUCATION
COURSE CODE; FED 126

ANSWER ANY FOUR QUESTION ONLY
TIME ALLOWED; 2HRS

- ✕ 1. Enumerate the causes of success and failure of entrepreneur. ✓
2. List any five [5] forms of legal enterprise that you know. ✕
- ✓ 3. What are roles of entrepreneurship to economic development in Nigeria? ✓
- ✓ 4. List any seven and explain three [3] important skills for aspiring entrepreneurs. ✓
5. As an entrepreneur enumerate any five [5] ideas you can start doing for free barely lifting a finger. ✓
- ✕ 6. State any five [5] function of entrepreneurship. ✓

DEPARTMENT OF GENERAL STUDIES

2ND AND 4TH SEMESTER EXAMINATION, 2021/2022 SESSION

CLASS; ALL ND1 INCLUDING ND 11 AHP AND HND: MECHANICAL ENG'G

COURSE CODE; 121

TIME ALLOWED; 2HRS 30Mins

COURSE TITLE; CITIZENSHIP EDUCATION

INSTRUCTION; ANSWER ANY FOUR (4) QUESTIONS OF YOUR CHOICE. ANSWERS ARE EXPECTED TO BE WRITTEN IN GOOD ENGLISH

QUESTION ONE

- a. Define the term Government?
- b. Explain the following forms of Government;
 - i. Monarchy
 - ii. Aristocracy
 - iii. Democracy
- c. Explain any three (3) features of Democracy?

QUESTION TWO

- a. Define the concept; Separation of Power?
- b. Identify any four (4) advantages of Separation of Power
- c. Explain any four (4) ways in which the Legislature checks the activities of the Executive ?

QUESTION THREE

- a. Define the term Election?
- b. Explain any four (4) processes of Election in Nigeria?
- c. Write briefly on the Need for free and fair Election in Nigeria?

QUESTION FOUR

- a. What is Constituted Authority?
- b. Explain three (3) types of Authority according to Marx Weber?
- c. Enumerate any five (5) duties of Constituted Authority in Nigeria?

QUESTION FIVE

- a. What is Bureaucracy?
- b. Explain any four (4) characteristics of Bureaucracy?
- c. Identify any four (4) disadvantages of Bureaucracy?

QUESTION SIX

- a. Define the term Leadership?
- b. "There cannot be good leadership without good followership", explain?
- c. Explain any four (4) characteristics of a good leader?

THE FEDERAL POLYTECHNIC, MUBI

END OF 2nd AND 4th SEMESTER EXAMS 2021/ 2022 SESSION

Programme: ND I COMPUTER SCIENCE. CU: 3.0
 Course Code: COM 122.

TIME: 3HRS

Course Title: INTRODUCTION TO INTERNET.

Instructions: Answer any 5 questions. All Question Carry Equal Marks (12mks each)

× QUESTION ONE

- a. What is an Internet?
- b. Define the term transmission Media.
- c. In a tabular form, differentiate between internet, intranet & extranet.

3mks
3mks
6mks

QUESTION TWO

- a. Define the term DTR.
- b. Differentiate between Peer-to-Peer & Client/server Network.
- c. Write short note on any three types of media cables known to you.

2mks
4mks
6mks

× QUESTION THREE

- a. Highlight any six (6) benefit of an Internet.
- b. Distinguish between the following LAN, MAN & WAN.
- c. Write the meaning of these acronyms (i) FTP (ii) WWW (iii) E-mail.

6mks
3mks
3mks

× QUESTION FOUR

- a. Define the concept of Cybercafé.
- b. List the first ten (10) steps involves in setting up a Cybercafé.
- c. Define MODEM.

3mks
5mks
4mks

QUESTION FIVE

- a. State any three (3) methods of internet Connection.
- b. Distinguish between Upstream & Downstream.
- c. Highlight any two (2) merits & demerit of wireless broadband.

3mks
5mks
4mks

QUESTION SIX

- a. Enumerate all the steps involve in creating a new internet connection.
- b. What are the available choices one can have to Access an internet.
- c. Highlight any four (4) obstacles to obtain an affective transmission.

3mks
3mks
6mks

× QUESTION SEVEN

- a. State any four (4) obstacles of internet Growth in Nigeria.
- b. What is Domain Name System?
- c. Outline any four (4) factors to be considered when choosing an ISP.

4mks

THE FEDERAL POLYTECHNIC, MUBI
DEPARTMENT OF COMPUTER SCIENCE
END OF 2nd & 4th SEMESTER EXAMINATION, 2021/2022
PROG: ND 1 CS COURSE TITLE: Comp. Prog. Using OO Java COURSE CODE: COM123 (121) CU: 3.0
INSTRUCTION: Answer All Questions in Section A & Two (2) Questions in Section B TIME: 2½hrs

SECTION A: Objectives [30 marks]

1. In Sun changed the name to "Java" and modified the language **A. 1995 B. 1994 C. 1993 D. 1992**
2. In java code, the line that begins with /* and ends with */ is known as? **A. Multiline Comment B. Single line comment C. Print output D. Accept input**
3. is a collection of programs that help programmers to develop and run java programming applications efficiently **A. Object B. Platform C. Program D. Class**
4. The code generated by a java compiler is called code **A. Byte B. Source C. Java D. Object**
5. Which of these have highest precedence? **A. ++ B. () C. * D. >>**
6. Hierarchical is a features of OOP has a super-class sub-class concept. **A. inheritance B. Object C. Class D. Polymorphism**
7. Division operator has, precedence over multiplication operator **A. Highest B. Least C. Equal D. Lowest**
8. are special methods that are used for initializing objects when they are created **A. Source B. Modifiers C. Constructors D. Method**
9. is the ability of a variable, object or function to take on multiple forms. **A. Polymorphism B. inheritance C. Abstraction D. Object**
10. Local Variables are a variable that are declared the body of a method. **A. Inside B. Outside C. Begin D. Middle**
11. JRE is a piece of software that is designed to other software. **A. Start B. Run C. Stop D. End**
12. Loops does not have access to non-static members of the enclosing class. **A. While B. For C. Nested D. If**
13. exceptions can be caught at the time of program compilation. **A. Try B. Finally C. Code D. Checked**
14. What statement transfer execution to different parts of your code based on the value of an expression? **A. Break B. While C. Loop D. Switch**
15. Code generator converts the byte code into the native machine code **A. JIT B. JDK C. JRE D. JVM**
16. are used for documenting a program **A. Java B. Comment C. Code D. Lines**
17. Once you run a java you can run on any platform and save lots of time **A. Program B. Compiler C. Object D. Class**
18. The class loader is a used for loading class files **A. System B. Subsystem C. Package D. Applet**
19. Which of the following are not java modifiers? **A. public B. private C. friendly D. transient**
20. Abstraction is an act of representing essential features without including Details **A. Declaration B. Variable C. Data Type D. Background**
21. Concatenation is joining of two or more could be retrieved using web software **A. String B. Array C. List D. Set**
22. The java ~~APP~~ was the first kind of executable program that java is designed for building object Applications **A. JRE B. JSP C. JAR D. JWS**
24. The methods and fields are members of the **Class** allows users to create objects they want and create methods to handle those objects.

SECTION B: ESSAY

Question 1:

- a. What is a Variable in Java? State any two (2) rules of naming variables **[3 marks]**
- b. Name any four (4) fields where Java is applicable (used for) **[2 marks]**
- c. What are the Steps to Compile and Run java program? **[4 marks]**
- d. Study the below Java codes and answer the followings: **[6 marks]**

```
class COM123 {
    public static void main(String args[]){
        System.out.println("Hello COM123 Java Programmers");
    }
}
```

Question 2:

- i. What is the output? **[3 marks]**
- ii. If the program is compiled, what is the name of the bytecode (.class) file created? **[2 marks]**
- a. What is Java Data Types? State the two (2) parts of data type. **[6 marks]**
- b. Briefly explain the following: Polymorphism, Encapsulation, and Inheritance. **[6 marks]**
- c. Study the below Java codes and answer the following questions.

```
i. class ArrayDemo{
    ii. public static void main(String args[]){
    iii. int array[] = new int[7];
    iv. for (int count=0; count<7; count++){
    v. array[count]=count+1;
    vi. }
    vii. for (int count=0; count<7; count++){
    viii. System.out.println("array["+count+"] = "+array[count]);
    ix. }
    x. }
    xi. }
```

Question 3:

- a. Write a java program that will displays your class registration numbers **[7 marks]**
- b. From command prompt state the complete syntax of compiling a java program *firstprogram.java* saved in a folder *workspace*. **[4 marks]**
- c. Problem solving is one of the program development techniques. State any four (4) of its steps. **[4 marks]**

308020

THE FEDERAL POLYTECHNIC, MUBI
SCHOOL OF SCIENCE & TECHNOLOGY
DEPARTMENT OF COMPUTER SCIENCE

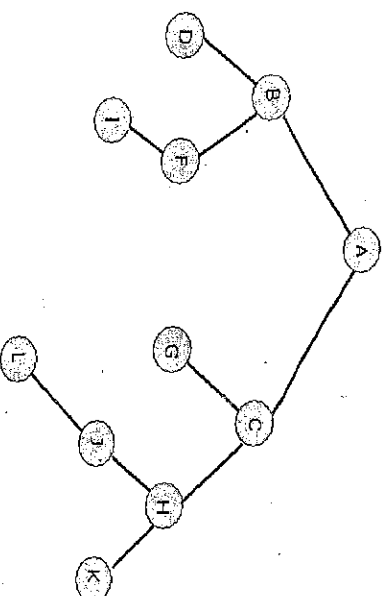

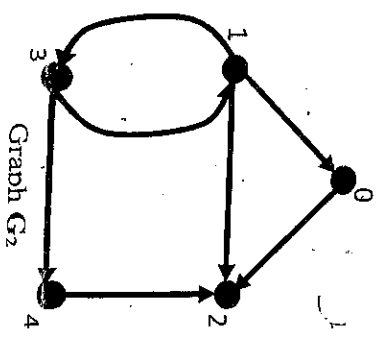

Programme: ND 1 Computer Science
Course Title: Data Structures and Algorithms
Instructions: Answer any five (5) Questions

2ND Semester 2021/2022 Academic Session
Course Code: COM 124

CU: 3.0

Time Allowed: 2 1/2 Hours

1. (a) Define Data structures [2 marks]
(b) Identify the two categories of data structures and give two examples from each category. [6 marks]
(c) Define the following terms (i) File (ii) Record (iii) Field [6 marks]
2. (a) Define algorithm [2 marks]
(b) State four characteristics of algorithm [4 marks]
(c) Briefly describe the following operations in data structures:
(i) Traversing (ii) Searching (iii) inserting (iv) Deleting [8 marks]
3. Let **A** and **B** be two sets, define a binary relation from set **A** to **B** [4marks]
(a) When do we say an equivalence relation is (i) reflexive (ii) symmetric (iii) transitive? [6 marks]
(c) What do the following symbols stand for: (i) $\sim$ (ii) $\equiv$ (iii) $\exists$ (iv) $\in$ [4 marks]
4. (a) Define: (i) Graph (ii) Digraph [5marks]
(b) Given the digraph G_2 ,
(i) What is the order of G_2 ?
(ii) What is the size of G_2 ?
(iii) What is the degree of vertex 1 in G_2 ?
(iv) What is the out-degree of vertex 3 in G_2 ? [4 marks]
(c) Give adjacency matrix representation for the graph G_2 [5marks]
5. (a) What would be the output of the following string processing:
(i) LENGTH('ALGORITHM') (ii) INSERT('ABDUL IS A BOY',12,'GOOD')
(iii) DELETE('ABCDEFG',4,2) (iv) REPLACE('SALBYAT','BY','A') [8marks]
(b) Suppose a text T and patterns P and Q are in the memory of a computer. Suppose we want to replace every occurrence of the pattern P in T by the Pattern Q. Write the algorithm for the replacement. [6marks]
6. (a) Write the algorithm for Bubble sorting an array of N elements [6 marks]
(b) Manually bubble sort the following array elements in ascending order: {2 1 5 7 4 3} [8 marks]
7. (a) Briefly describe the basic operations associated with: (i) **stack** and (ii) **queue** data structures [8 marks]
(b) Given the binary tree below, give its: (i) preorder (ii) in order and (iii) post order traversals [6 marks]

T: 10 4
P: 1 9

FEDERAL POLYTECHNIC MUBI
ELECTRICAL AND ELECTRONICS ENGINEERING TECHNOLOGY
2ND & 4TH SEMESTER EXAMINATION 2021/2022 SESSION
December, 2022

850115

PROGRAM: **ND I Computer Science**
COURSE TITLE: **PC Upgrading and Maintenance**
COURSE CODE: **COM 126**

UNIT: 2

TIME:

2½ HOURS

INSTRUCTIONS: *Answer any four questions; all questions carry equal marks.*

QUESTION 1.

- (a) Highlight the necessary precautionary measures that are required to maintain maximum performance of the PC. (10 mks)
- (b) List any four (4) typical hazards which could threaten the normal operation of a PC. (10 mks)

QUESTION 2

- (a) i) Define the term 'upgrading' and give two (2) benefits of upgrading to a computer user. (8 mks)
ii) List any four (4) items that can be continuously upgraded in a PC. (4 mks)
- (b) i) State the basic difference between software upgrade and hardware upgrade. (4 mks)
ii) Give one (1) example each for the two types of upgrade in 2(b)i. (4 mks)

QUESTION 3

- (a) i) Highlight three (3) Functions of the power supply unit of a PC. (6 mks)
ii) Mention the two (2) major constraints faced by the power supply unit. (4 mks)
- (b) i) State two (2) basic considerations in replacing a power supply unit. (6 mks)
ii) State the guiding principle when upgrading a power supply in terms of capacity in Watts. (4 mks)

QUESTION 4

- (a) i) List three (3) factors that determine the upgradeability of the motherboard. (6 mks)
ii) List any two (2) kinds of RAM that you know. (4 mks)
- (b) i) explain briefly why the central processing unit (CPU) is often referred to as 'The brain' of the computer. (5mks)
ii) List any four (4) CPU versions developed by Intel Corporation. (5 mks)

QUESTION 5

- (a) i) List five (5) bus types that can be used to access a hard disk. (5 mks)
ii) Give the meaning of the following: SCSI, EIDE, USB, ATA, and RAID. (5 mks)
- (b) i) Briefly explain the following errors in hard disk:
1. cross-linked clusters, 2. Lost clusters (4 mks)
ii) How can the errors in 5(b)i be resolved? (6 mks)

QUESTION 6

- (a) i) State the main the function of the computer monitor. (2 mks)
ii) List the three (3) types of monitor in terms of colour display. (6 mks)
- (b) i) State three (3) reasons that commonly leads to replacement of Visual Display Unit, (VDU). (6 mks)
ii) Briefly explain the connection between the VDU and the video card. (6 mks)

THE FEDERAL POLYTECHNIC, MUBI

SCHOOL OF HUMANITIES AND CREATIVE ARTS TECHNOLOGY

DEPARTMENT OF GENERAL STUDIES

2nd & 4th SEMESTER MAIN EXAMINATION 2021/2022 SESSION

CLASS: ND 1 COMPUTER SCIENCE

COURSE TITLE: RESEARCH METHODOLOGY

TIME ALLOWED: 2 ¼ Hrs
COURSE CODE: GNS 228

INSTRUCTION:

ANSWER ANY FOUR QUESTIONS IN ALL

QUESTION ONE

- What is research?
- Describe the following types of research;
 - Applied research,
 - Basic/fundamental research,
 - historical research and
 - descriptive research

QUESTION TWO

- What is data?
- Identify and explain two types of data
- List five importance of research

QUESTION THREE

- Discuss the following methods of data collection
 - direct observation
 - interview
 - questionnaire
 - measurement
- describe chapter five of your project

QUESTION FOUR

- What is sampling?
- List and explain four types of sampling that you know

QUESTION FIVE

- Enumerate five ethics of research
- What are the contents/compositions of chapter two of your project?

QUESTION SIX

- Write short note on the following;
 - Theory
 - Probability
 - Population
 - Title page
 - Declaration

Wishing you all the best

THE FEDERAL POLYTECHNIC, MUBI

SCHOOL OF SCIENCE AND TECHNOLOGY,
DEPARTMENT OF COMPUTER SCIENCE,

2ND & 4TH SEMESTER EXAMINATION, 2021/2022 ACADEMIC SESSION

PROGRAMME: ND I CS COURSE TITLE: Introduction to System Analysis and Design
COURSE CODE: COM 125; DURATION: 2 ½ HRS
INSTRUCTIONS: Answer (4) Questions Only CU: 3.0

Question One

- Define the term system. Hence itemized any two types of system. 10 marks
- Explain the followings: (i). online system, (ii). real time systems, 10 marks
- Briefly discuss the implementation phase of a system. Hence itemize the three steps involved in the phases. 10 marks

Question Two

- Highlight five (5) components of information system 10 marks
- List the four fundamental stages of system development life cycle (SDLC). 10 marks
- Mention and briefly explain any four (4) qualities of a system analyst. 10 marks

Question Three

- Briefly explain: Data integrity, data integration and data independency 10 marks
- Draw a diagram, showing: (i). one-to-many, (ii). Many-to-one relationship. 10 marks
- Define data flow diagram and list the four main activities of Data flow diagram support 10 marks

Question Four

- Draw a flowchart for calculating the sum of first 20 natural numbers? 10 marks
- List five (5) points that must be clarified during interview 10 marks

Questions Five

- Explain the following methods of system changeover: 10 marks
 - Direct changeover, (ii). Parallel running (iii). Pilot running.
- Differentiate between systems analysis and system design 10 marks
- Differentiate between System requirements and user requirements. 10 marks

Question Six

- Draw neatly system development methodologies of: (i). Waterfall, (ii). Parallel 10 marks
- List four (4) components of Dataflow Diagram 10 marks
- Mention two (2) disadvantages of Prototype methodology 10 marks

314942

FEDERAL POLYTECHNIC MUBI
School of Science and Technology
Department of Computer Science

End of Second Semester Examination 2021/2022 Academic Session

Course Code: COM 121 **Time Allowed:** 2 ½ hours

Programme: ND I CS
Course Title: Computer Programming using C **Course Unit:** 3.0
Instruction: Answer All questions in Section A and any Two (2) in Section B

SECTION A (30 Marks)

- 1) Every function's body begins with _____ and ends with _____ (a) # and ; (b) { and } (c) # and { (d) { and ;
- 2) Every statement ends with a(n) _____ (a) # (b) ; (c) % (d) &
- 3) The _____ is called an escape character. (a) / (b) \ (c) # (d) &
- 4) The _____ standard library function is used to obtain data from the keyboard. (a) printf (b) scanf (c) if (d) for
- 5) Whenever a new value is placed in a memory location, that value overrides the previous value in that location. This process is said to be _____ (a) printf (b) scanf (c) destructive (d) nondestructive
- 6) The _____ standard library function displays information on the screen. (a) printf (b) scanf (c) destructive (d) nondestructive
- 7) The _____ statement is used to make decisions. (a) if (b) for (c) while (d) do while
- 8) Every C program begins execution at the _____ function. (a) main (b) #include (c) printf (d) scanf
- 9) If the result of an integer division, where both the numerator and the denominator are integers, is a fraction, the fractional part is _____ (a) lost (b) change (c) added (d) multiply
- 10) The conversion specifier _____ is used in a **scanf** format control string to indicate that an integer will be input and in a **printf** format control string to indicate that an integer will be input
- 11) When a value is read from a memory location, the value in that location is preserved; this process is said to be _____ (a) printf (b) scanf (c) destructive (d) nondestructive
- 12) The escape sequence `\n` represents the _____ character, which causes the cursor to position to the beginning of the next line on the screen. (a) tab (b) beep (c) character (d) newline

State whether each of the following is *True* or *False*:

- 13) The arithmetic operators *, /, %, + and - all have the same level of precedence.
- 14) A program that prints three lines of output must contain three **printf** statements.
- 15) Comments cause the computer to display the text after // on the screen when the program is executed.
- 16) Lines beginning with # are processed by the preprocessor before the program is executed.
- 17) All variables must be defined before they're used.
- 18) All variables must be given a type when they're defined.
- 19) C considers the variables **number** and **NumBEr** to be identical.
- 20) Definitions can appear anywhere in the body of a function.
- 21) The remainder operator (%) can be used only with integer operands.

Fill in the blanks in each of the following:

- 22) The directive _____ tells the preprocessor to include the contents of the input/output stream header files.
- 23) The _____ in parentheses after main indicates that main does not receive any information.
- 24) A _____ is a location in memory where a value can be stored for use by a program.
- 25) _____ are words reserved by C and cannot be used.
- 26) _____ are ignored by the compiler.
- 27) The _____ statement allows a program to perform different actions based on a condition.
- 28) All _____ must be declared before being used in a program.
- 29) C is _____. Uppercase and lowercase letters are different in C.
- 30) Single-line comments begin with _____.

Question 1.

- (a) State and explain the rules of operator precedence in C (12 Marks)
- (b) Rewrite the following Algebraic equation to C equivalent; $s = ut + 1/2 at^2$

SECTION B (30 Marks)

Question 2.

- (a) Write a C program that generate a Multiplication Table (10 Marks)
- (a) What is a variable? (2 Marks)
- (c) State the syntax of declaring a variable. (3 Marks)

Question 3.

- (a) Write a C program that accept an integer from a user, and let the program determine whether the given integer is an integer is odd or even by displaying appropriate message to the user (7 Marks)
- (b) What do you understand by keywords in C? (3 Marks)
- (c) Give five (5) examples of C keyword. (5 Marks)

H

THE FEDERAL POLYTECHNIC, MUBI
SCHOOL OF HUMANITIES AND CREATIVE ARTS TECHNOLOGY
DEPARTMENT OF LANGUAGES AND COMMUNICATION
2nd AND 4th SEMESTER MAIN EXAMINATION, 2021/2022 ACADEMIC SESSION
5th DECEMBER, 2022

COURSE TITLE: Communication in English I **TIME ALLOWED:** 2hrs 30mins
COURSE CODE: GNS 102

PROGRAMMES: ND I Business Administration Mgt., Civil Engr., URP, Nutrition & Dietetics, Arabic Studies, Computer Engr., Mass Communication, Animal Health & Production, Public Admin., Legal Studies, Building Tech., Environmental Science, Chemical Engr., Quantity Survey, Estate Mgt. Valuation, Architecture, Agric Engr., Mechanical Engr., Library & Information Science, Computer Science, Geology & Mining, Pharmacy, OTM, Purchasing & Supply, Horticulture, SLT, Co-operative Economics Mgt., Electrical Engr., and Banking Finance.

Instruction: Answer ANY four (4) questions.

QUESTION ONE

- a. Define communication.
- b. Write short notes on the followings:
 - i. Sender/encoder
 - ii. Message
 - iii. Channel
 - iv. Receiver/decoder
 - v. Feedback
- c. List any five (5) purposes of communication.

QUESTION TWO

- a. Define interference in communication.
- b. Write short notes on the three (3) levels of interference in communication.
- c. Explain the term code mixing and code switching.

QUESTION THREE

- a. List any five (5) organs of speech.
- b. Correctly, place the stress marks on the following words to distinguish the nouns from the verbs.

Words	Nouns	Verbs
i. Import		
ii. Rebel		
iii. Conduct		
iv. Convict		
v. Record		

- c. Identify the underlined phonemes in the following words:

- i. See ii. Lip iii. Judge iv. Tough v. vision vi. Cake
- vii. Bush viii. Pot ix. Thank x. sing

QUESTION FOUR

- a. Define correspondence.
- b. List the parts/components of a formal letter.

02519
89367

21616

019

083

0821

062

- c. Explain the function of the first, middle and the last paragraphs of the formal letter.

QUESTION FIVE

- a. Define memo.
- b. Write short notes on the followings:
 - i. Circular
 - ii. Informal letter
 - iii. Formal
 - iv. Email
- c. Bring out five (5) differences between the features of a formal and an informal letters.

QUESTION SIX

Read the following passage carefully and answer the questions that follow.

Jeroboam: I am a Prophet, a prophet by birth and inclination. You have probably seen many of us on the streets, many with their own churches, many inland, many on the coast, many leading processions, many looking for procession to lead, many curing the deaf, and many raising the dead. *In fact, there are many eggs and there are eggs, same thing with prophets.* I said to come right down to my neck. For them, this was a certain sign that I was born a natural prophet. And I grew to love the trade. It used to be a very respectable one in those days and competition was dignified. But in the last few years, the beach has become fashionable and the struggle for the land has turned the profession into a thing of ridicule. Some prophets I could name gained their present beaches by getting women penitents to shave their bosoms in spiritual ecstasy. This prejudiced the councillors who came to divide the beach among us.

Yes, it did come to a point where it became necessary for the town council to come to the beach and settle the prophets' territorial warfare once and for all. My Master, the same one who brought me up in prophetic ways, stated his claim and won a grant of land..... I help him with a campaign led by six dancing girls from the French territory, all dressed as Jehovah's witnesses. What my old master did not realize was that I was really helping myself.

Mind you, the beach is hardly worth having these days. The worshippers have dwindled to a mere trickle and we really have a fight for every new convert. They all prefer high life to the rhythms of celestial hymns. And television too is keeping our wealthier patrons at home. They use to come in the evening when they could not easily be recognized. Now they stay at home and watch television.

QUESTIONS:

1. In the italicized line, 'In fact, there are eggs and there are eggs. Same thing with prophets.'
 - a. There are too many prophets competing with him.
 - b. Prophets are as numerous as eggs.
 - c. There are different kinds of prophets just as there are different kinds of eggs.
 - d. Prophets arise as quickly as eggs are laid.
2. Some prophets gained a piece of land on the beach by:
 - a. Posing as Jehovah's Witnesses.
 - b. Winning female penitents in order to enlarge their congregation.
 - c. Persuading the councillor to be converted.
 - d. Bribing the town council.
3. From what Jeroboam says we can conclude that the wealthier patrons came to meetings at night instead of in the day because they:
 - a. Like darkness
 - b. Wanted to meet the dancing girls.

- c. Were busy during the day.
- d. Were ashamed to be seen there.
- c. Enjoying the celestial hymns more in the evening.
- 4. What qualify does Jeroboam reveal about himself?
 - a. Sincerity
 - b. Hypocrisy
 - c. Piety
 - d. Charity
- c. Faith
- 5. What is the author's attitude towards the types of religious sect represented by Jeroboam?
 - a. Humorous disrespect
 - b. Calm reverence
 - c. Firm belief
 - d. Profane dislike
- c. Biting
