

A STUDENT'S INDUSTRIAL WORK EXPERIENCE SCHEME (SIWES)

**HELD AT
ADAMAWA UNITED FOOTBALL CLUB OFFICE OF THE GOVERNOR, YOLA,
ADAMAWA STATE**

**FROM: AUGUST, 2025
TO: DECEMBER, 2025**

**BY
LADI MICHAEL
(SBT/ACC/ND/24/043)**

**A SIWES REPORT SUBMITTED TO THE DEPARTMENT OF ACCOUNTANCY,
SCHOOL OF BUSINESS TECHNOLOGY, FEDERAL POLYTECHNIC, MUBI,
ADAMAWA STATE, NIGERIA**

JUNE, 2026

A STUDENT'S INDUSTRIAL WORK EXPERIENCE SCHEME (SIWES)

**HELD AT
ADAMAWA UNITED FOOTBALL CLUB OFFICE OF THE GOVERNOR, YOLA,
ADAMAWA STATE**

**FROM: AUGUST, 2025
TO: DECEMBER, 2025**

**BY
LADI MICHAEL
(SBT/ACC/ND/24/043)**

**A SIWES REPORT SUBMITTED TO THE DEPARTMENT OF ACCOUNTANCY,
SCHOOL OF BUSINESS TECHNOLOGY, FEDERAL POLYTECHNIC, MUBI,
ADAMAWA STATE, NIGERIA**

**IN PARTIAL FUFILMENT OF THE REQUIREMENTS FOR THE AWARD OF
NATIONAL DIPLOMA (ND) IN ACCOUNTANCY**

JUNE, 2026

ATTESTATION

I Ladi Michael here by the attest that I did my Industrial attachment program at **Adamawa United Football Club Office of the Governor, Yola, Adamawa State** between **August, 2025** to **December, 2025**, and this report is prepared by me and submitted to the SIWES coordinator as required. I understand that all information contained in this report are correct and will be penalized if found to be false. I also know that the SIWES coordinator may request for additional evidence as requested for reconciliation.

.....

LADI MICHAEL
(SBT/ACC/ND/24/043)

.....

DATE

CERTIFICATION

This is to certify that Ladi Michael with a registration number SBT/ACC/ND/24/043 has undergone his student industrial training at **Adamawa United Football Club Office of the Governor, Yola, Adamawa State**. In partial fulfilment of the requirements for the award of national diploma (ND) in Accountancy Federal Polytechnic Mubi as certified by the undersign officer.

.....

DEPERTMENTAL SIWES COORDINATOR

.....

SIGN/DATE

DEDICATOIN

This report is dedicated to God almighty for this wisdom and strength and my lovely parents for their love and care throughout the period of my SIWES training.

ACKNOWLEDGEMENT

I thank God Almighty for making me to undergo students industrial work experience scheme (SIWES) successfully.

My gratitude goes to my lovely parents for their prayers, financial and moral support during my attachment.

I also appreciate the kind gesture of my brothers and sisters and those who supports me in prayers and contribution during my industrial attachment.

I whole heartedly thank my Head of Department, SIWES coordinator and all lecturers of Accountancy Department for their effort to ensure my success as their students.

I am greatly indebted to my co-SIWES students to mention, may God strengthen our relationship together and grant us academic excellence.

I sincerely thank you all for your contribution and support.

CHAPTER ONE

INTRODUCTION

1.1 Brief History of SIWES

The Students' Industrial Work Experience Scheme (SIWES) was established in 1973 by the Industrial Training Fund (ITF) to address the gap between theoretical knowledge and practical skills among Nigerian tertiary institution graduates (ITF, 2010). Prior to its establishment, there was a growing concern among industrialists regarding the lack of practical experience among graduates, especially those in science and technology disciplines (Akinyemi, 2011). The SIWES program serves as a skills development initiative aimed at preparing students from universities, polytechnics, and colleges of education for real-world industrial environments.

This initiative was designed to enhance students' ability to apply their classroom knowledge to real-life situations, facilitate their transition to the workplace, and equip them with the necessary technical and operational skills. It provides students the opportunity to operate and interact with equipment and machines not commonly found in their schools (Oladele & Akintayo, 2013).

Before SIWES, employers found that graduates lacked job-ready competencies due to a lack of exposure to the practical side of their disciplines. This led to high unemployment and dissatisfaction with the quality of graduates being produced (Adegboye, 2012). The situation prompted the ITF to introduce the SIWES scheme in 1973/74 as a solution to the disconnect between classroom learning and workplace demands.

Initially fully funded by the ITF, the financial burden led to the fund's withdrawal in 1978. Consequently, the federal government transferred the scheme's coordination to the National Universities Commission (NUC) and the National Board for Technical Education (NBTE) in 1979. Later in 1984, the supervision and implementation of SIWES were handed back to the ITF, which resumed full management of the program in July 1985 with federal government funding (ITF, 2010).

1.2 Objective of SIWES

- i. To provide an avenue for student in the Nigerian Institution to acquire industrial skills and experience during their course of study.
- ii. To prepare students for the work situation they are likely to meet after graduation.
- iii. To expose the student to work method and techniques in handling equipment and machinery that may not be available in their institution.

- iv. To allow the transition phase from school to the world of working environment easier and facilitate students contact for later job placements.
- v. To provide student with an opportunity to apply their theoretical knowledge in real work situation thereby bridging the gap between theory and practice.

1.3 Significance of SIWES

In the earlier stage, students are graduating without any technical knowledge or working experience and this makes them to undergo further training after securing an employment. With this reason, student industrial training was established. During this program, as designed by the ITF, students are expected to get technical assistance and acquire more experience scheme in their chosen field of study and exposed them to the usage of source machines and safety precaution where relevant before the completion of their program in their various institutions.

CHAPTER TWO

2.1 Brief History of Adamawa United

Adamawa United Football Club is a professional football club owned and funded by the Adamawa State Government. The club was established in the year 2000 with the primary aim of promoting football development in Adamawa State and providing a platform for talented football players to showcase their skills at national and international levels.

The club is based in Yola, the capital city of Adamawa State, and plays its home matches at the Mahmud Ribadu Square Stadium. Since its establishment, Adamawa United Football Club has participated in various football competitions organized by the Nigeria Football Federation (NFF) and the League Management Company (LMC).

The creation of the club was part of the government's efforts to encourage youth participation in sports and reduce unemployment among young people through sporting activities. The club also serves as a means of promoting unity, discipline, and healthy competition among youths in the state.

The club remains one of the major sporting institutions in Adamawa State and continues to play an important role in youth empowerment and sports development.

2.2 Vision of the Club

The vision of Adamawa United Football Club is to become one of the leading football clubs in Nigeria and Africa through excellence in football development, professionalism, discipline, and effective management.

The club aims to nurture young talents and create opportunities for players to excel in their football careers while maintaining high standards of sportsmanship and integrity.

2.3 Mission of the Club

- i Promoting football development in Adamawa State.
- ii Discovering and nurturing talented football players.
- iii Representing Adamawa State in national football competitions.
- iv Encouraging youth participation in sports.
- v Maintaining professionalism in football administration.
- vi Contributing to social and economic development through sports.

2.4 Objectives of Adamawa United Football Club

- i To develop football talents within Adamawa State and Nigeria.
- ii To compete successfully in national football competitions.
- iii To provide employment opportunities for players and sports administrators.
- iv To encourage discipline, teamwork, and leadership among youths.
- v To promote the image of Adamawa State through sporting excellence.
- vi To contribute to national sports development.

2.5 Organizational Chart

Figure 2.1: Organizational chart

Functions/ Responsibilities

- i. **Adamawa State Government** – The owner and major sponsor of the club.
- ii. **Chairman** – Responsible for policy formulation and overall supervision of the club.
- iii. **General Manager** – Oversees the day-to-day administration and implementation of policies.
- iv. **Administration Department** – Handles personnel matters, records, and correspondence.
- v. **Accounts Department** – Manages budgeting, accounting records, payments, and financial reporting.
- vi. **Technical Department** – Responsible for football development and team performance.
- vii. **Medical Unit** – Provides healthcare services and injury management for players.
- viii. **Security Unit** – Ensures safety of players, officials, and club property.
- ix. **Head Coach** – Leads the coaching crew and oversees team training.
- x. **Assistant Coaches and Fitness Trainers** – Assist in technical and physical development of players.
- xi. **Players** – Represent the club in football competitions.

CHAPTER THREE

WORK EXPERIENCE I

3.1 Cash Book

A cash book is one of the most important accounting records used by an organization to record all cash receipts and cash payments. It serves both as a journal and a ledger account because transactions are recorded directly into it as they occur. The cash book enables organizations to maintain accurate records of cash movements and assists management in monitoring the availability and utilization of funds.

During my SIWES programme at Adamawa United Football Club, I was exposed to the practical use of the cash book in recording daily financial transactions. The Accounts Department maintained the cash book to ensure that all receipts and payments were properly documented and accounted for. Through observation and participation in some accounting activities, I learned the procedures involved in recording transactions and balancing the cash book.

There are different types of cash books commonly used in organizations. These include the Single Column Cash Book, which records only cash transactions; the Double Column Cash Book, which records both cash and bank transactions; and the Triple Column Cash Book, which records cash, bank, and discount transactions. The choice of cash book depends on the nature and volume of transactions carried out by the organization.

The cash book plays a significant role in financial management. It helps organizations maintain accurate records of all cash transactions, monitor cash balances, reduce accounting errors, and provide information required for the preparation of financial statements. It also serves as an important internal control mechanism that enhances accountability and transparency in financial operations.

During the training period, I observed several procedures involved in maintaining the cash book. These procedures included the collection of source documents such as receipts, invoices, and payment vouchers. The transactions were carefully verified to ensure accuracy before being recorded. Cash receipts were entered on the debit side of the cash book, while cash payments were entered on the credit side. At the end of the accounting period, the cash book was balanced to determine the available cash balance.

The practical experience gained from working with the cash book improved my understanding of accounting procedures and financial record-keeping. I learned the importance of accuracy, proper documentation, and timely recording of transactions. I also understood how organizations use cash records to monitor financial activities and ensure effective management of financial resources.

3.2 Bank Statement

A bank statement is an official document issued by a bank that provides details of all transactions carried out on an account during a specific period. It contains information relating to deposits, withdrawals, transfers, bank charges, and account balances. Bank statements are important financial records used by organizations to monitor banking activities and verify the accuracy of financial transactions.

During my SIWES programme, I observed how bank statements were obtained and used by the Accounts Department for financial monitoring and reconciliation purposes. The organization regularly reviewed its bank statements to ensure that transactions recorded by the bank corresponded with those recorded in the cash book.

The use of bank statements is essential for effective financial management. They provide evidence of receipts and payments, help organizations monitor their financial position, and assist in detecting errors or unauthorized transactions. Bank statements also play a vital role in the preparation of bank reconciliation statements, which help explain differences between bank records and accounting records.

Several procedures were followed during the examination of bank statements. First, the bank statements were obtained from the bank and reviewed to ensure that the account information was correct. Each transaction listed on the statement was carefully examined and compared with the entries recorded in the cash book. Any discrepancies identified were investigated to determine their causes. Thereafter, bank reconciliation statements were prepared to reconcile differences between the bank balance and the cash book balance.

The reconciliation process was particularly important because it helped identify outstanding lodgements, unpresented cheques, bank charges, direct credits, and other transactions that might not have been recorded in the organization's books. Through this process, the organization ensured the accuracy and reliability of its financial records.

My exposure to bank statement analysis provided valuable practical knowledge of banking operations and financial control procedures. I learned how organizations verify banking

transactions, maintain accurate accounting records, and ensure that financial information is reliable for decision-making purposes.

Overall, my exposure to cash book maintenance and bank statement analysis during the SIWES programme significantly improved my practical accounting knowledge. I gained hands-on experience in recording transactions, maintaining financial records, monitoring cash and bank balances, and preparing reconciliation statements. These activities enhanced my understanding of financial management, internal control systems, and accounting procedures. The experience also strengthened my attention to detail, analytical skills, and ability to apply classroom knowledge to real workplace situations.

For a SIWES report, reporting style should describe what you observed and learned during the training rather than listing definitions and points. Here is a rewritten version in report format.

CHAPTER FOUR

WORK EXPERIENCE II

4.1 Budget and Budgeting Tools

During my industrial training at Adamawa United Football Club, I was attached to the Accounts Department, I observed that budgeting was an essential aspect of financial management within the organization. Budgets were prepared to estimate expected income and expenditure for a specific period and to ensure that available resources were utilized efficiently. The budgeting process involved forecasting future financial requirements and developing plans that would guide the organization's operations. Management used budgets as tools for planning, controlling expenditure, allocating resources, and measuring performance. Through budgeting, the organization was able to establish financial targets and monitor progress toward achieving its objectives.

During my training, I observed the use of several budgeting tools. One of these was budget forecasting, which involved estimating future income and expenses based on historical financial information and anticipated activities. Financial reports from previous periods were also used as a basis for preparing realistic budget estimates.

The Accounts Department utilized spreadsheet applications in preparing and analyzing budget data. These applications made calculations easier and improved the accuracy of budget preparation. I also observed the use of variance analysis, which involved comparing actual performance with budgeted figures. This enabled management to identify deviations from planned targets and take corrective actions where necessary.

The budgeting process began with the collection and review of previous financial records. Expected income and expenditure were then estimated based on available information and organizational objectives. Budget estimates were prepared and reviewed carefully to ensure that they were realistic and achievable. After the review process, the proposed budget was submitted to management for approval.

Once approved, the budget was implemented and used as a guide for financial operations. Actual performance was monitored continuously and compared with budgeted figures to ensure effective control of organizational resources. Where significant variances occurred, appropriate adjustments were made to improve financial performance and achieve organizational goals. My exposure to budgeting activities provided valuable practical knowledge in financial planning and control. I learned how budgets are prepared, implemented, and monitored within an organization. I also

gained an understanding of forecasting techniques, resource allocation, expenditure control, and performance evaluation. The experience enhanced my analytical and decision-making skills and provided me with a better understanding of the role of budgeting in achieving organizational objectives.

4.2 Financial Reports

Another important area in which I gained practical experience during my industrial training where I observed the preparation and use of financial reports in the organization. Financial reports were prepared periodically to provide information on the financial performance and financial position of the organization. These reports served as important tools for management in evaluating performance, planning future activities, and making financial decisions. I observed that the Accounts Department maintained proper accounting records which formed the basis for the preparation of financial reports. The department ensured that all financial transactions were properly recorded and classified before the preparation of the reports. Financial reports prepared by the organization included the Income Statement, Balance Sheet, Cash Flow Statement, and Statement of Changes in Equity.

The Income Statement was used to determine whether the organization generated a surplus or deficit during a given period by comparing income with expenses. The Balance Sheet provided information on the assets, liabilities, and equity of the organization at a particular date. The Cash Flow Statement was used to monitor the movement of cash into and out of the organization, while the Statement of Changes in Equity showed changes in the capital or accumulated funds of the organization.

During the preparation of these reports, accounting records were first collected and reviewed to ensure completeness and accuracy. Ledger accounts were examined and a trial balance was prepared to verify the correctness of recorded transactions. Thereafter, the various financial statements were prepared using information obtained from the accounting records. The completed reports were carefully reviewed before being presented to management for decision making purposes.

I observed that management relied heavily on financial reports to assess organizational performance, monitor income and expenditure, evaluate financial stability, and plan future operations. The reports also served as important sources of information for auditors and other stakeholders.

Through my involvement and observation during this exercise, I gained practical knowledge of financial reporting procedures and understood how accounting information is transformed into meaningful reports. The experience improved my understanding of financial statement preparation, financial analysis, and the role of financial information in organizational management.

CHAPTER FIVE

SUMMARY, CONCLUSION AND RECOMMENDATIONS

5.1 Summary

The Students Industrial Work Experience Scheme (SIWES) gave me the opportunity to gain practical experience related to my course of study. During my training at Adamawa United Football Club, Office of the Governor, Yola, I was exposed to various accounting and administrative activities such as cash book management, bank statement analysis, financial reporting, and budgeting.

The training helped me understand how the knowledge learned in the classroom is applied in a real work environment. It also improved my communication skills, teamwork, problem-solving ability, and understanding of workplace ethics. Through the programme, I learned the importance of accuracy, responsibility, and professionalism in carrying out official duties.

Overall, the SIWES programme was a valuable learning experience that broadened my knowledge and prepared me for future employment opportunities.

5.2 Conclusion

In conclusion, the SIWES programme was very beneficial to me. It enabled me to gain practical experience and develop skills that cannot be fully acquired in the classroom. The training exposed me to real workplace conditions and helped me understand how organizations manage their daily operations.

I appreciate the efforts of the Industrial Training Fund (ITF), my institution, and Adamawa United Football Club for making the programme successful. The experience has increased my confidence and improved my readiness for future professional responsibilities.

5.3 Recommendations

Based on my experience during the SIWES programme, I recommend the following:

- i Students should be properly supervised by both the Industrial Training Fund (ITF) and their institutions during the training period.
- ii Institution supervisors should preferably be from the student's department to ensure effective monitoring and guidance.
- iii Organizations should provide stipends or allowances to students to assist with transportation and other expenses during the training period.

- iv Organizations should create a supportive learning environment that encourages students to participate actively and gain practical knowledge.
- v More organizations should be encouraged to accept SIWES students and provide them with meaningful work experience related to their field of study
